MRS Golden Age Supplement

Interviewing Services for Senior Aged Applicants

Conducting underwriting tele-interviews with senior aged applicants requires the right partner. With our 20+ years of experience, we have developed a unique offering tailored to this expanding segment of our population.

Going beyond the standard cognitive and activity risk factors; MRS has the ability to better qualify the applicant with an evaluation of their overall well-being. Our skilled interviewers combined with an intelligent reflexive underwriting platform will make a difference.

The MRS Golden Age Supplement:

- Flexible program to support a wide variety of risk selection approaches.
- Interviewer Interludes designed to explain the responses obtained or initiate an underwriting alert
- Reflexive underwriting rules for: Rx database searches; MIB searches, APS's, MVR searches and more
- Modular format for: general insurance needs, health and habits targeting chronic conditions, cognitive acuity abilities, activities of daily living in a three-step reflexive process
- Interviewers trained for the sensitivities to the elderly population
