

Front End Solutions

## Point of Sale

### Simple, Fast, Compliant.

Expedite your application process with the MRS Point of Sales (POS) Service. The service offers a customizable rules engine to deliver decisions in accordance with your guidelines. Accept, Reject, Additional Requirements needed, or Refer to Underwriting; the decision is yours.

The POS workflow is designed specifically for each client; we deliver what works best for you. Built upon the robust MRS telephone platform, our POS service combines technology with the highly regarded MRS tele-underwriting staff. The result is a streamlined process to propel new business development efforts. Agents will appreciate the level of service, you will appreciate the results.

### As the system is designed, clients have the ability to incorporate:

- Straight through Processing using real time MIB, Rx and MVR results
- Reflexive questions based on real time database searches
- Fully compliant Voice Signature Process

### Reduce your time to issue from days to minutes

Our POS process is customizable to fit your workflow, products, distribution, and underwriting guidelines.
